Inspection of Records and Requests for Copies

Public records are open to inspection at all times during district office hours. Any reasonable segregation portion of a record shall be made available for inspection by every person requesting the record after deletion of the portions that are exempted by law.

Inspection of Records and Requests for Copies (continued)

Every person may request a copy of any district record open to the public and not exempt from disclosure.

Within 10 days of receiving any request for a copy of records, the Superintendent or designee shall determine whether the request seeks copies of disclosable public records in the district's possession. The Superintendent or designee shall promptly inform the person making the request of his/her determination and the reasons for the decision.

In unusual circumstances, the Superintendent or designee may extend the 10-day limit for up to 14 days by providing written notice to the requester and setting forth the reasons for the extension and the date on which a determination is expected to be made. Unusual circumstances include the following, but only to the extent reasonable and necessary to properly process the request:

1. The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request
2. The need to search for, collect and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request
3. The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the district having substantial subject matter interest therein
4. The need to compile data, to write programming language or a computer program, or to construct a computer report to extract data

If the Superintendent or designee determines that the request seeks disclosable public records, the determination shall state the estimated date and time when the records will be made available.

Upon request for a copy that reasonably describes an identifiable record, an exact copy shall be promptly provided unless it is impracticable to do so.

The Superintendent or designee shall charge an amount for copies that reflects the direct costs of duplication. Written requests to waive the fee shall be submitted to the Superintendent or designee.

If any person requests a public record be provided in an electronic format, the district shall make that record available in any electronic format in which it holds the information. The district shall

Inspection of Records and Requests for Copies (continued)

provide a copy of the electronic record in the format requested as long as the requested format is one that has been used by the district to create copies for its own use or for use by other agencies.

The cost of duplicating an electronic record shall be limited to the direct cost of producing a copy of the record in electronic format. However, the requester shall bear the cost of producing the copy of the electronic record, including the cost to construct the record and the cost of programming and computer services necessary to produce the copy, under the following circumstances:

1. The electronic record is one that is produced only at otherwise regularly scheduled intervals
2. The request would require data compilation, extraction, or programming to produce the record

Assistance in Identifying Requested Records

If the Superintendent or designee denies a request for disclosable records, he/she shall assist the requester in making a focused and effective request that reasonably describes an identifiable record. To the extent reasonable under the circumstances, the Superintendent or designee shall do all of the following:

1. Assist in identifying records and information responsive to the request or the purpose of the request, if specified

If after making a reasonable effort to elicit additional clarifying information from the requester to help identify the record, the Superintendent or designee is still unable to identify the information, this requirement will be deemed satisfied.

2. Describe the information technology and physical location in which the records exist
3. Provide suggestions for overcoming any practical basis for denying access to the records or information sought

Provisions of the Public Records Act shall not be construed so as to delay access for purposes of inspecting records open to the public. Any notification denying a request for public records shall state the name and title of each person responsible for the denial.
