Community Relations

Solicitation of Funds and Distribution of Materials by School Personnel

Because of the multiplicity of organizations and individuals seeking funds, in most instances for worthy purposes, all such groups or individuals shall be barred from directing soliciting contributions from school personnel and students with the exception of any charity recommended by the State Department of Education. All other agencies, as recommended by the Superintendent of Schools and approved by the Board, shall be granted the privilege of placing collection containers in each school outside the regular classrooms.

Additional direct solicitation of funds from school personnel and students tends to defeat the educational values, may embarrass children, and frequently duplicates appeals made to the home. (cf. 1320 - Relations Between Public and Students)
