## Business & Noninstructional Operations

### Energy & Water Management

The Governing Board recognizes the importance of minimizing the district's use of natural resources, providing a high-quality environment that promotes health and productivity, and effectively managing the district's fiscal resources.

The Superintendent or designee may develop strategies for implementing effective and sustainable resource practices, exploring renewable and clean energy technologies, reducing energy and water consumption, minimizing utility costs, reducing the amount of waste of consumable materials, encouraging recycling and green procurement practices, and promoting conservation principles.

The Superintendent or designee may periodically report to the Board on the District's progress in meeting energy and water use reduction goals.
