

# Huntington Beach Union High School District Board Policies and Administrative Regulations

BP 3550  
Page 1 of 3

## Business and Noninstructional Operations

### Food Service/Child Nutrition Program

The Superintendent or designee shall develop strategies to increase students' access to the District's food service programs and to maximize their participation in available programs.

Foods and beverages available through the District's food service program shall:

- Be carefully selected so as to contribute to students' nutritional well-being and the prevention of disease;

- Meet or exceed nutrition standards specified in law and administrative regulation;

- Be prepared in ways that will appeal to students, retain nutritive quality, and foster lifelong healthful eating habits;

- Be served in age-appropriate portions;

- Be available to students who meet federal eligibility criteria at no cost or at reduced prices, and to other students at reasonable prices;

To encourage student participation in school meal programs, schools may offer multiple choices of food items within a meal service, provided all food items meet nutrition standards and all students are given an opportunity to select any food item.

The Superintendent or designee may invite students and parents/guardians to participate in the selection of foods of good nutritional quality for school menus.

The Board desires to provide students with adequate time and space to eat meals. To the extent possible, school, recess, and transportation schedules shall be designed to encourage participation in school meal programs.

The Superintendent or designee may periodically review the adequacy of school facilities for cafeteria eating and food preparation.

In accordance with law, the Superintendent or designee may develop and maintain a food safety program in order to reduce the risk of foodborne hazards at each step of the food preparation process, from receiving to service.

Business and Noninstructional Operations

Food Service/Child Nutrition Program

The Superintendent or designee may annually report to the Board on student participation in the district's nutrition programs and the extent to which the district's food services program meets state and federal nutrition standards for foods and beverages. In addition, the Superintendent or designee shall provide all necessary and available documentation required for the Administrative Review conducted by the California Department of Education (CDE) to ensure the food service program's compliance with federal requirements related to nutrition standards, meal patterns, provision of drinking water, school meal environment, food safety, and other areas as required by the CDE.
