Minimum Day for Attendance Accounting Purposes

The minimum school day for the comprehensive high schools of the district for attendance accounting purposes is 240 minutes.

The minimum day may be computed by determining the number of minutes of attendance in any two (2) consecutive days and dividing that number by 2. If the resulting quotient is at least 240 minutes, the pupils shall be deemed to have attended a minimum day, even if the number of minutes in one of the two consecutive days is less than 240, but not less than 180
