Students

Evaluation & Progress

The Governing Board recognizes that student evaluation is an integral part of a student's educational program and expects students to progress through each grade level within one school year.

Toward this end, instruction shall be designed to accommodate the variety of ways that students learn and provide strategies for addressing academic deficiencies as needed.

Students shall progress through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement. Progress toward graduation shall be based on the student's ability to pass the subjects and electives to earn the minimum number of credits in order to graduate. Credit for each subject shall be based on a reasonable, fair, open and understandable grading system and each teacher shall provide an evaluation of each student in his/her classes at the end of each marking period.

The Superintendent or designee shall offer an appropriate program of remedial instruction to assist students in meeting grade-level expectations. The district also may offer supplemental instruction to a student who is identified as being at risk for credit deficiencies. (Education Code 37252.2, 37252.8, 48070.5)
