

Huntington Beach Union High School District Board Policies and Administrative Regulations

BP 5131.6
Page 1 of 7

Students

Drugs, Tobacco, Alcohol Alcohol and Other Drugs

The Governing Board believes that the use of alcohol or other drugs adversely affects a student's ability to achieve academic success, is physically and emotionally harmful, and has serious social and legal consequences. The Board desires to keep district schools free of alcohol and other drugs in order to help prevent violence, promote school safety and create a well-disciplined environment conducive to learning.

The Superintendent or designee shall develop, implement and evaluate a comprehensive prevention and intervention program that is coordinated with other school and community-based services and programs. The district's program shall be scientifically based and designed to prevent or reduce alcohol or other drug use and the possession and distribution of illegal drugs. It shall include primary prevention activities such as decision-making skills and conflict management, instruction, referral to a rehabilitation program, enforcement/discipline, activities that promote the involvement of parents/guardians and coordination with appropriate community agencies and organizations.

The Board and Superintendent shall agree upon performance measures that will be used to monitor and determine the effectiveness of the district's program in reducing drug and alcohol use. The Superintendent or designee shall develop and implement an evaluation process that includes ongoing assessment and analysis of objective data regarding the incidence of drug and alcohol use among district students, including discipline problems, and the prevalence of risk factors.

The Superintendent or designee shall consult with principals, teachers, other school personnel, students and parents/guardians when developing the district's program.

The Superintendent or designee shall clearly communicate to all students, staff and parents/guardians the district's policies, regulations and school rules related to the use of alcohol and other drugs on school campuses or at school activities. Information about program needs and goals shall be widely distributed in the community.

Staff should encourage students to participate as responsible partners in efforts to maintain a safe, constructive school climate.

The Board encourages the establishment of site-level advisory groups to assist in promoting alcohol- and drug-free schools.

Students

Drugs, Tobacco, Alcohol

Alcohol and Other Drugs (con't)

The district's drug education program shall augment county drug education services, if any. District staff shall take every opportunity to cooperate with county and county office of education staff in planning and implementing collaborative alcohol and drug prevention programs.

Instruction

The district shall provide science-based preventative instruction which has been proven effective in helping students avoid the use of alcohol and other drugs.

All instruction and related materials shall consistently state that unlawful use of alcohol or other drugs is wrong and harmful. Instruction shall not include the concept of responsible use of drugs or alcohol when such use is illegal. (20 USC 7114, 7162; Health and Safety Code 11999.2)

The district shall offer staff development activities for staff who implement the comprehensive drug and alcohol prevention and intervention program.

Intervention, Referral and Student Assistance Programs

School staff, students and parents/guardians shall be informed about early warning signs which may indicate alcohol and other drug use and about appropriate agencies offering intervention programs, counseling, referral and other student assistance programs.

The Board strongly encourages any student who is using alcohol or drugs to discuss the matter with his/her parent/guardian or with any staff member. Students who disclose their use of alcohol or other drugs when seeking help from an intervention or recovery program shall not be disciplined for such use.

Enforcement/Discipline

The Superintendent or designee shall take appropriate action to eliminate possession, use or sale of alcohol and other drugs and related paraphernalia on school grounds or at school-sponsored activities.

Students possessing, using or selling alcohol or other drugs or related paraphernalia shall be subject to disciplinary procedures including suspension or expulsion and/or referral to law enforcement in accordance with law, Board policy and administrative regulation. In addition, such students may be referred to an appropriate counseling program, transferred to an alternative placement, and/or be restricted from extracurricular activities, including athletics.

Students

Drugs, Tobacco, Alcohol

Tobacco

The Governing Board recognizes the serious health risks presented by tobacco use and desires to ensure that, through adoption of consistent policies, district students are made aware of those risks and, to the extent possible, protected from them. The Superintendent or designee shall establish a coordinated school health system which includes a comprehensive behavioral health education component that teaches students the knowledge, skills, and attitudes they need in order to lead healthy lives and avoid high-risk behaviors, such as tobacco use.

The Superintendent or designee shall provide prevention, intervention, and cessation education, information, activities, and/or referrals to district students and shall ensure consistent enforcement of district policies prohibiting student possession and use of tobacco products.

Prohibition Against Tobacco Use

Students shall not possess, smoke, or use tobacco or any product containing tobacco or nicotine while on campus, while attending school-sponsored activities, or while under the supervision and control of district employees. Prohibited products include, but are not limited to, cigarettes, cigars, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel. (Education Code 48900, 48901)

Students' possession or use of electronic cigarettes, electronic hookahs, and other vapor-emitting devices, with or without nicotine content, that mimic the use of tobacco products is also prohibited.

These prohibitions do not apply to a student's possession or use of his/her own prescription products. However, student possession or use of prescription products in school shall be subject to the district's policy and regulation for addressing the administration of medications on campus. (Education Code 48900)

Prevention Instruction

The district shall provide developmentally appropriate tobacco-use prevention instruction for students at selected grade levels from K-12 pursuant to Education Code 51202. Such instruction shall be aligned with state content standards and the state curriculum framework for health education and with any requirements of state and/or federal grant programs in which the district participates.

Intervention/Cessation Services

The district may provide or refer students to counseling, intensive education, and other intervention services to assist in the cessation of tobacco use. Such intervention services shall be provided as an alternative to suspension for tobacco possession.

Students

Drugs, Tobacco, Alcohol

Program Planning

The district's tobacco-use prevention and intervention program shall be based on an assessment of tobacco-use problems in district schools and the community, an examination of existing services and activities in the community, and a determination of high-risk student populations that are most in need of district services.

The Superintendent or designee shall coordinate with the local health department and county office of education in program planning and implementation. He/she may establish an advisory council including students, parents/guardians, district staff, representatives of the local health department and community organizations, law enforcement professionals, and/or others with demonstrated expertise in tobacco prevention and cessation.

The Superintendent or designee also shall coordinate the district's tobacco-use prevention and intervention program with other district efforts to reduce students' use of illegal substances and to promote student wellness.

The Superintendent or designee shall select tobacco-use prevention programs based on the model program designs identified by the California Department of Education (CDE) and may adapt the model to meet district needs. (Health and Safety Code 104420)

The Superintendent or designee shall not accept for distribution any materials or advertisements that promote the use or sale of tobacco products. He/she also shall not accept tobacco-use prevention or intervention funds or materials from the tobacco industry or from any entity which is known to have received funding from the tobacco industry.

Program Evaluation

To evaluate the effectiveness of the district's program and ensure accountability, the Superintendent or designee shall biennially administer the California Healthy Kids Survey or other appropriate student survey at selected grade levels in order to assess student attitudes toward tobacco and student use of tobacco. He/she also shall annually report to the Board, and to the CDE if required, the data specified in Health and Safety Code 104450.

The results of program evaluations shall be used to refine program goals and objectives and make changes as needed to strengthen program implementation.
