Students

Refreshments

It is the intent of the Governing Board of the Huntington Beach Union High School District to facilitate student performance and participation in school and district activities. The Governing Board believes that serving of refreshments, including breakfast or lunch, enhances student performance, increases participation in school sponsored events, and facilitates interaction among participants.

The Governing Board hereby authorizes the Superintendent or designee to approve expenditures for such refreshments and to establish regulations that will ensure that these expenditures are reasonable and that they are budgeted. For categorical projects, the regulations must ensure that expenditures are allowed by project guidelines. For Associated Student Body funds, the regulations must ensure that expenditures are consistent with Board Policy and Administrative Regulation 3452.
