Instruction

Curriculum Development and Evaluation

The Governing Board desires to provide a research-based, sequential curriculum which promotes high levels of student achievement and emphasizes the development of basic skills, 21st Century Skills, problem solving, and decision making.

The district's curriculum shall be aligned with the district's vision and goals for student learning, Board policies, academic content standards, state curriculum frameworks, state and district assessments, graduation requirements, school and district improvement plans, and, when necessary, related legal requirements.

The Superintendent or designee may establish a process for curriculum development, selection, and/or adaptation which utilizes the professional expertise of teachers, principals, and district administrators representing various grade levels, disciplines, special programs, and categories of students as appropriate.

The selection and evaluation of instructional materials shall be coordinated with the curriculum development and evaluation process.

Information may be presented about the resources that would be necessary to successfully implement the curriculum and describe any modifications or supplementary services that would be needed to make the curriculum accessible to all students.
