## Instruction

### Instructional Objectives

The goals and work plans of the Instruction/Personnel Division are components in the district's long-range plan that resulted from legislation and Board direction.

Our goal is to foster better communication and an awareness of the service provided by the Instruction/Personnel Division as we implement the district's long-range plan and provide support to the schools.

The district believes that all students are capable of meaningful learning. Therefore the primary instructional mission of the district shall be to provide for academic instruction to each student designed to develop the skills, knowledge and understanding required to promote personal development and good citizenship to the fullest extent of each student's individual potential.

The district also believes that the maintenance of well-qualified and well-informed employees is of paramount importance in the provision of good educational programs. The district will, therefore, make every effort to hire and retain well-qualified and effective certificated and classified staff. Opportunities for staff development and retraining will be made available to all employees.
