Field Trips

School-Sponsored Field Trips

The Governing Board recognizes that school-sponsored field trips are an important component of a student's development and supplement and enrich the classroom learning experience, lead to increased student achievement, and foster student engagement. The Board encourages field trips to reinforce and increase learning opportunities and to enhance district programs. School-sponsored field trips may be conducted in connection with the district's course of study or school-related social, educational, cultural, athletic, school band activities, or other extracurricular or cocurricular activities.

The principal shall establish a process for approving a staff member's request to conduct a school-sponsored field trip. When planning trips, staff shall consider student safety, objectives of instruction, the most effective use of instructional time, the distance from school, district and student expense, and transportation and supervision requirements. Principals may exclude from the trip any student whose presence on the trip would pose a safety or disciplinary risk.

No curricular field trip shall be authorized if any student would be excluded from participation because of a lack of sufficient funds. The Superintendent or designee may coordinate with community groups to supply funds for students in need. (Education Code 35330)

The Board may approve the use of district funds for student expenses for in-state, out-of-state, or out-of-country field trips or excursions when permitted by law. In addition, expenses of instructors, chaperones, and other personnel participating in such trips, as well as incidental expenses for the use of district equipment during the trip, may be paid from district funds. (Education Code 35330) However, these expenses shall not be paid by student contributions.

Field Trips (continued)

Field Trips to Foreign Countries

The Board of Trustees approves in principle the conducting of educational field trips, financed by school district or Associated Student Body funds, to foreign countries as established in the Education Code. The Board may grant approval of specific requests for such educational field trips by school-related social, educational, cultural, athletic, or school band organizations when all of the staff rules and regulations have been satisfied.

Board Approval

Requests for school-sponsored trips of more than 100 miles one-way and/or involving out-of-state, out-of-country, across water, or overnight travel, or requiring a direct cost to the students, shall be submitted to the Superintendent or designee for consideration. The Superintendent or designee shall review the request and make a determination as to whether the request should be forwarded to the Board and recommended for approval.

All other school-sponsored trips shall be approved in advance by the school principal.

Non-School Sponsored Trips

Trips that are coordinated by private agencies or by private groups that contract independently with member(s) of the school staff shall be considered non-school sponsored trips. In order to avoid conflicts with school sponsored trips, staff member(s) shall notify the principal regarding the specifics of the non-school sponsored trip. Private agencies and school staff shall not solicit student participation or advertise non-school sponsored trips during the school day or in conjunction with school sponsored activities or clubs. If any agency or staff member coordinating this non-school sponsored trip wishes to use the facility for meeting(s) they must fill out a facility use agreement. Parents and students shall be notified that such trips are not sponsored or authorized by the school or the school district, nor does the school or district assume liability for such trips.
