Instruction

Community Resources

It is the intent of the Governing Board to encourage the use of community facilities as a means of providing additional physical resources to students when it is considered to be to their educational advantage.

It shall be the policy of the district to pursue the use of community facilities for regular classroom instruction whenever possible and educationally sound.

Community Volunteers

The district shall make a conscious effort to involve as many of its patrons as possible in the operation of the schools. Volunteers shall be required to conform to the established rules and regulations of the district. In no case shall volunteers be used to replace or serve in lieu of any regularly authorized or employed personnel or personnel positions.
