Instruction

Student Use of Technology

The Governing Board intends that technological resources provided by the district be used in a safe, responsible, and proper manner in support of the instructional program and for the advancement of student learning.

(cf. 4040 - Employee Use of Technology)

Teachers, administrators, and/or library media specialists are expected to review the technological resources and online sites that will be used in the classroom or assigned to students in order to ensure that they are appropriate for the intended purpose and the age of the students.

The Superintendent or designee shall notify students and parents/guardians about authorized uses of district computers, user obligations and responsibilities, and consequences for unauthorized use and/or unlawful activities in accordance with district regulations and the district's Acceptable Use Agreement. Students must be given equal access to technology regardless of age, gender or cultural heritage.

District technology includes, but is not limited to, computers, the district's computer network including servers and wireless computer networking technology (Wi-Fi), the Internet, email, USB drives, wireless access points (routers), tablet computers, smartphones and smart devices, telephones, cellular telephones, personal digital assistants, wearable technology, any wireless communication device including emergency radios, and/or future technological innovations, whether accessed on or off-site or through district-owned or personally owned equipment or devices.

Before a student is authorized to use district technology, the student and his/her parent/guardian shall sign and return the Acceptable Use Agreement. In that agreement, the parent/guardian shall agree not to hold the district or any district staff responsible for the failure of any technology protection measures or user mistakes or negligence and shall agree to indemnify and hold harmless the district and district staff for any damages or costs incurred.

(cf. 6162.6 - Use of Copyrighted Materials)

Instruction

Student Use of Technology (continued)

The district reserves the right to monitor student use of technology within the jurisdiction of the district without advance notice or consent. Students shall be informed that their use of district technology, including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, is not private and may be accessed by the district for the purpose of ensuring proper use. Students have no reasonable expectation of privacy in use of the district technology. Students' personally owned devices shall not be searched except in cases where there is a reasonable suspicion, based on specific and objective facts, that the search will uncover evidence of a violation of law, district policy, or school rules.

(cf. 5145.12 - Search and Seizure)

The Superintendent or designee may gather and maintain information pertaining directly to school safety or student safety from the social media activity of any district student in accordance with Education Code 49073.6 and BP/AR 5125 - Student Records.

(cf. 5125 - Student Records; Confidentiality)

Whenever a student is found to have violated Board policy or the district's Acceptable Use Agreement, the principal or designee may cancel or limit a student's user privileges or increase supervision of the student's use of the district's equipment and other technological resources, as appropriate. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and Board policy.

(cf. 5144.1 - Suspension and Expulsion/Due Process)

(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

Internet Safety

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that protects against access to visual depictions that are obscene, child pornography, or harmful to minors and that the operation of such measures is enforced. (20 USC 6777; 47 USC 254; 47 CFR 54.520)

To reinforce these measures, the Superintendent or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities.

Instruction

Student Use of Technology
Internet Safety (continued)

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

The district's Acceptable Use Agreement shall establish expectations for appropriate student conduct when using the Internet or other forms of electronic communication, including, but not limited to, prohibitions against:

1. Accessing, posting, submitting, publishing, or displaying harmful or inappropriate matter that is threatening, obscene, disruptive, or sexually explicit, or that could be construed as harassment or disparagement of others based on the student's actual or perceived race, color, ancestry, national origin, nationality, ethnicity, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, or gender expression or association with a person or group with one or more of these actual or perceived characteristics.

(cf. 5131 - Conduct)
(cf. 5144.3 - Bullying)
(cf. 5145.3 - Nondiscrimination/Harassment)
(cf. 5145.7 - Sexual Harassment)
(cf. 5145.9 - Hate-Motivated Behavior)
2. Intentionally uploading, downloading, or creating computer viruses and/or maliciously attempting to harm or destroy district equipment or materials or manipulate the data of any other user, including so-called "hacking".
3. Distributing personal identification information, including the name, address, telephone number, Social Security number, or other personally identifiable information, of another student, staff member, or another person with the intent to threaten, intimidate, unlawfully discriminate, including discriminatory harassment, intimidation, or bullying.

Instruction

Student Use of Technology Internet Safety (continued)

The Superintendent or designee shall provide age-appropriate instruction regarding safe and appropriate behavior on social networking sites, chat rooms, and other Internet services. Such instruction shall include, but not be limited to, the dangers of posting one's own personal identification information online, misrepresentation by online predators, how to report inappropriate or offensive content or threats, behaviors that constitute cyberbullying, and how to respond when subjected to cyberbullying.

The Superintendent or designee shall provide age-appropriate instruction regarding the district's acceptable use agreement, including instruction on the safe use of social networking sites and other Internet services including, but not limited to, the dangers of posting personal information online, misrepresentation by online predators, and how to report inappropriate or offensive content or threats.

The Superintendent or designee, with input from students and appropriate staff, shall regularly review this policy, the accompanying administrative regulation and other relevant procedures to help ensure that the district adapts to changing technologies and circumstances.

Use of District Computers for Instruction/Online Services/Internet Access

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that blocks or filters Internet access to visual depictions that are obscene, pornographic, or harmful to minors, and that the operation of such measures is enforced.

The Board desires to protect students from access to inappropriate matter on the Internet. The Superintendent or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet. He/she also shall establish regulations to address the safety and security of students and student information when using email, chat rooms, and other forms of direct electronic communication.

The Huntington Beach Union High School District is committed to preparing students to succeed in an increasingly complex information society. The Board of Trustees, therefore, encourages the instructional use of technology including, but not limited to, computer-based tools/software, web-based applications, social media, and distance learning. The Board believes that these technologies:

- Give students new ways to access information and practice skills;
- Help teachers meet a wide range of learning styles;

Student Use of Technology

Use of District Computers for Instruction/Online Services/Internet Access (continued)

- Enable teachers to move from whole class to small group and individualized instruction;
- Help students develop reasoning and problem-solving abilities;
- Prepare students to be lifelong learners and productive workers in a technological age.

Staff shall supervise students while they are using online services in an educational environment and may ask teacher aides, student aides, and volunteers to assist in this supervision.
