New Construction

Evaluating Existing Buildings

1. Purpose and Scope

To provide a structural and educational evaluation of existing school buildings.

2. Regulations

- A. All existing school facilities will be evaluated periodically, but not less than once a year, for their spatial, thermal, visual, health, sonic, and aesthetic requirements by the Director of Maintenance and Operations.
- B. Recommendations will be made by the Director of Maintenance and Operations to the Assistant Superintendent, Business and Operation Services, for necessary construction activities to effect comparable educational facilities at each educational site depending on the existing or proposed educational program.
- C. Planning for major rehabilitation or remodeling will be incorporated in the school facilities master construction plan.
